AJ Architecture Awards 2017: celebrating the very best of British architecture

The AJ's *Emily Booth* introduces the shortlisted projects in all 20 categories of the inaugural AJ Architecture Awards

We are delighted to reveal the 120 projects selected by our judges to compete in the first AJ Architecture Awards.

As you'll see in the following pages, the AJ Architecture Awards highlight the very best projects across a range of key categories – from community schemes and cultural projects to educational buildings and workplace designs.

Eva Jiřičná, Crispin Kelly and Mary Duggan are among the experts on our stellar judging panel. Between them, our jury will visit every shortlisted project in the 20 categories.

Jury visits will take place from 20 September to 13 October. In addition to stand-out design, our judges will consider each project in detail – such as how it has met or exceeded the brief, how it has promoted client or community engagement, and how it has excelled in the use of space or sense of place.

All winners will be revealed at an exclusive Gala Dinner at the Grosvenor House Hotel on 7 December. The evening's celebrations will culminate in the announcement of three special awards, chosen from all entries: the AJ Design of the Year, the AJ Architect of the Year and the AJ Editor's Choice Award.

All winning projects will feature in a special edition of the AJ and online. Congratulations to all the shortlisted projects and practices – we look forward to seeing you at the celebration dinner!
